Launch of “Phantom” – CPU Cooler

Extreme CPU cooler for Intel™ and AMD™ CPU with TDP over 200W

HONG KONG, 15 August 2017

Thermal Solutions specialist *GELID Solutions* unveils the latest extreme performance CPU cooler for Intel™ and AMD™ CPU. The *Phantom* is a product of GELID Solution GAMER product line.

The *Phantom* features a masterpiece of top-notch cooling technologies previously only available on ultra-high-end CPU coolers. The advanced twin-tower heatsink with lowered airflow resistance and the unique double layer mix of 3 super-sized 8mm power heat pipes and 4 optimized 6mm power heat pipes all deliver ultimate thermal performance. The full-fledged but compact design facilitates installation and broadens compatibility to computer chassis of various types and sizes. Full support of TDP over 200W makes the *Phantom* an overkill CPU cooling solution for pro gamers and overclockers.

The matched pair of improved 120mm fans with the intelligent GELID PWM (Pulse Width Module) control compliments the heatsink. The new *Double Layer Fan Blade* technology is applied to distribute air flow efficiently at low speed, and the redesigned PWM IC eliminates any clicking noise. The intelligent GELID PWM curve constantly keeps the fan silent but accelerates speed whenever additional cooling is needed. With 3 sets of fan mounts, a third optional fan can be installed to improve the cooler performance even more. Additionally, the award winning high performance GC-PRO thermal compound is already included in the package. Enhanced mounting clips for multiple AMD™ CPU sockets AM2, AM2+, AM3, AM3+, AM4, FM1, FM2 and for Intel™ CPU LGA 775, 1366, 1155, 1156, 1150, 1151 sockets, as well as the back plate for AMD™ and Intel™ mainboards are all included too.

The cooler is RoHS and WEEE conform and carries a 5 year warranty.

“The Phantom comes with overclocking at the heart. The supercharged cooling technologies, enhanced compatibility and full support of TDP over 200W all make it a perfect fit to the latest top-performance AMD and Intel CPU”, said Gebhard Scherrer, Sales Director of GELID Solutions Ltd.

The *Phantom* is available now and has a MSRP of USD 42.50 or Euro 39.99.
